

Touch Off

AmaLee

Will we never know of freedom?

(Nananananananananana)

(It's on fire)

So now It's my turn

The leading better

No room for failure

Not here in my world

I gotta cut the fuse before it burns us all

(It's on fire)

No god has ever answered my words

But it don't matter

I still got hope and that's all I could really ask for

I gotta shake the fear so I can

Keep on running forward

(It's on fire)

I wish I could forget

The memories that cut deepest

Cause I have found our path is shared by both heaven and hell

It only takes a spark

For a fire to start

Won't hesitate we'll fan the flames

That is the way

We'll make our own future

I'm gonna reach that finish line

Even if inches at a time

I'll keep going nothing can stop me

(Nananananananananana)

They say that we're not strong enough

But I am never giving up

And I'll leave this future behind me

(Nananananananananana)

I'll keep going nothing can stop me

(Nananananananananana)
