AmaLee

I am very very crazy  
Very sure no one could ever stop me  
This web is craving the world  
And it consumes it wanting more

One, two, three, four

Welcome to our dinner party in the moonlight  
Everyone's here so let's enjoy the feast  
I can't stop, can't stop eating  
Can't stop, can't stop, not enough

Anything can be eaten  
Even if you say no  
Ahahahah

Are you ready for the full course freshly  
Picked for the flavor's sadistic pleasure  
Don't stop, don't stop feeding  
Don't stop, don't stop, one more bite

I want more, I need more  
It's sin I hunger for

I am very very crazy  
Very sure no one could ever stop me  
Now that you've had your fill  
Let's kill our karma  
I wanna go  
Very very tasty  
Very satisfying  
Let's have a toast  
This web is craving the world  
And it consumes it wanting more

I just want to eat  
How tasty it is

One, two, three, four

Everything  
Let's throw it on the chopping board  
Let's strike down our sanity  
And prey upon it  
Can't stop, can't stop eating  
Can't stop, can't stop, lost myself

I can't, can't erase this disgrace  
But this crime is no mistake

You are very very like a berry  
Ripe and red and ready to eat  
Tell me what tastes the best  
The juicy, fresh there's no contest  
Very very we are berries  
Foolish people gushing with life  
Without a trace, they vanish

And they are never seen again

I just want to eat  
How tasty it is

Go ahead - call it sin  
That's what it is  
Call it what you want  
No shame in it  
Instinct, oh so devilish  
And your appetite is the catalyst  
Ahahah

I am very very crazy  
Very sure no one could ever stop me  
Now that you've had your fill  
Let's kill our karma  
I wanna go  
Very very tasty  
Very satisfying  
Let's have a toast  
This web is craving the world  
And it consumes it wanting more

I am very very hungry
