

We Are! (One Piece)

AmaLee

Come aboard and bring along
All your hopes and dreams
Together we will find everything that we're looking for
One piece!

Compass left behind, it'll only slow us down
Your heart will be your guide
Raise the sails and take the helm
That legendary place
That the end of the map reveals
Is only legendary till someone proves it real
Through it all, through all the trouble times
Through the heart ache, through the pain
Know that I will be there to stand by you
Just like I know you'll stand by me

So come aboard and bring along
All your hopes and dreams
Together we will find everything that we're looking for
There's always room for you
If you wanna be my friend
We are...
We are on the cruise!
We are!

Even though I believe
All the tales that I am told
You might think I'm naïve
But I'm set to move ahead

If we ever meet again
I'll tell you all about
The adventures on my journey
And the things I wanna see

If you find any time, you'll hear a pinch, I got your back
We can turn it all around, I'll lend a hand
Just like I know you'd do for me

Come along, if we speed ahead, as we race the night
And I don't mind if we don't find the treasures lying out
But there's always room for you
If you wanna be my friend
We are...
We are on the cruise!
We are!

So come aboard and bring along
All your hopes and dreams
Together we will find everything that we're looking for
There's always room for you
If you wanna be my friend
We are...
We are on the cruise!
We are!
We are!
We are!
We are!....
