

What Bout My Star

AmaLee

Baby, tell me what to do?
Foot on the peddle, I'm waiting on stand by
Want my heart and want my love
With a single kiss (kiss kiss kiss)

If it's boring, it's not my style
I want a love that takes my heart soaring
Beautiful! Excuse me!
I only see, la la la
Possibilities!

Point, I don't care,
Dollars, they're so fake
Point, and start the count down
That's leading to our love

What 'bout my star?
What 'bout my star?
What 'bout my star?
What 'bout my star?
What 'bout my star?
What 'bout my star?
Ahhh Oohh

Let me know what you want, I will give you
How fantastic to be with you, my love!

Let me know what you want, I will give you
How fantastic to be with you, my love!

Darling, how about you come here? (LA LA LA LA)
No you, no life is how my world's run! (LA LA LA LA)

Need your heart and need your love
With the sweetest kiss

If this love is a lie, I don't mind (I wouldn't mind!)
'Cause the climb is what makes it so exciting

Wonderful! Charming you!
To catch your heart, la la la
We'll sing around the world

Three: Hey, let's start count down
Two: Are you ready?
One: I can't wait anymore
So, let my love be heard!

What 'bout my star?
What 'bout my star?
What 'bout my star?
What 'bout my star?
What 'bout my star?
What 'bout my star?
Ohh whoaaa aaahh wooo~

I want to take you on a date, (hmm)

So you don't miss my miracle kiss
But I don't think that I can wait

Let me know what you want, I will give you
How fantastic to be with you, my love!

Let me know what you want, I will give you
How fantastic to be with you... my love
