

White Light (Tales of Zestiria)

AmaLee

Dwelling in the silence, fading into white
Life so psychedelic, living a dream, we've nothing to fear
I've disowned the darkness and that deadly dance
I've had enough - but can't wake up

Please one last chance

I wanna be white, white now

I don't wanna lose my voice
I don't wanna fade away
So they can see the truth, aim to repaint these days
Take aim, and hit the mark - that white, hypnotic spark
Now's the time to rise as one

I wanna be the white, white light

Na na na na na na na

Feel it under your flesh, programmed in your blood
One day we will devour, all of the pain and bitter remorse
Our chains of dependence sow themselves in deep
We gotta help each other
Go, love to love
I believe in white, white now

I don't wanna lose my way
I don't wanna walk that line
Always giving in too soon, breaking down when you could shine
Return to white once more - Return and be restored
Now's the time to rise as one
I wanna be the white, white light

Na na na na na

No one knows right from wrong
No one knows dark from light
Add a layer more of paint; until the world's set right
Go on, with all your might - But none can taint this white
It'll stay forever pure

I wanna be a white, white light

Na na na na na

Na na na na na
