

Your Lie In April - Medley

AmaLee

A rainbow is never formed by chance
The blossoming colors always dance
In a whirlwind of a thousand hues

Under that brilliant crimson sky, I was falling so hard
And I knew that my world was you

It's not a moment you can capture on film
But even so I'll never let it disappear
You are a song and every last note, is carved into my heart

This is our rainbow-colored symphony
Every day, a symphony
A beautiful sound I've never known
A melody no one can play alone
Crying, laughing from hello
Do-Re-Mi-Fa-Sol
All of our emotions form this symphony

I breathe a sigh and watch the sky as it collects this little hopeless puff
of air
There are a thousand cherry blossom petals swirling to a silent song up there
I spin around and around and around and around and then spin right around
I'm waiting patiently for spring but I don't know if I can bear it without you around

Don't you know you have a little magic in you?
It wipes away the monochrome hue
And fills this world with color when you laugh beside me

Hey, let's go and make the most of today
Our time is precious, they say, and I wanna spend it all with you

You were the one, you were always the one - you were the light in my life
When you're with me, we can take on the night, shining like stars in the sky

Don't hide away - never hold back your tears, trying so hard to be strong
Only for you I'd gather the stars, 'cause with you is where they belong

After the storm has passed, I looked up to the sky
That brilliant blue, a bittersweet goodbye
I remember how we laughed - it always makes me smile

In a single beat, both our paths began to meet
So I'll take a vow, here and now, as we're shining bright

Among a million stars, a single love is born
A burning light, to last the test of time
When the winter turns to spring and today, into the next
It's a symphony of each and every dream

We were walking side by side, just a single step away
I wish I could recall what had made us laugh at all
How I miss the magic of those ordinary days

Even now, it's still all so clear and your voice is the music I hear

You are still the orange of the sunset in my dreams

I just really wish that you were here

'Cause inside my dreams it's not enough

To hear your voice once more, that's all I'm asking for

We'll pick up our duet, 'cause it can't be finished yet

I just really wish that you were here to compose another memory

I promise when I find I'm missing you, I'll play... our symphony
