

Love My Body

Amanda Black

Oh I love my body
Won't change it for nobody
Like the stars above (Above, yeah)
There's nothing like my body
Oh I love my body

You called my skin dirty, so I kept scrubbin' on
Bleachin' so they can't see what I see in the mirror
I ain't a slave no more, won't stop 'til I free her
Cosmic beings is who we are
One day we will see us all
The black you stole, we gonna take it back
Back to who we are, you won't find her while you hate her
I said Amandla mntu omnyama, you gotta wake up
We need to love us, usher us into the free world

Free world
Usher us into the free world
Free her, we won't make it without her
Free mind, free spirit and free earth
Free love, free us, free all

Oh I love my body
Won't change it for nobody
Like the stars above (Above, yeah)
There's nothing like my body
Oh I love my body

Cel' und'xolele mzimba wam' (Mzimba wam')
I haven't been treating you right (Right)
Making us sick with all these doubts
Bad habits, negative thoughts
Andisakwazi nokulala (Nokulala)
Insomnia ind'phethe blind (Blind)
With all these thoughts running my mind
Will find my balance, sizo phila

Free world
Usher us into the free world (Free world)
Free her, we won't make it without her
Free mind, free spirit and free earth (Free earth)
Free love, free us, free all (Free all)
Free world
Usher us into the free world (Free world)
Free her, we won't make it without her
Free mind, free spirit and free earth (Free earth)
Free love, free us, free all (Free all)

Oh I love my body
Won't change it for nobody (Nobody, nobody yeah)
Like the stars above (Above, yeah)
There's nothing like my body
Oh I love my body
