

# First Dance

Amanda Cook

There's a dream that I keep dreaming  
A dream about us  
Where you take me by the hand  
And I just close my eyes and trust  
I never thought I'd see this moment  
I never thought I'd fall in love  
But now here I am

So take me to the place I love  
Tell me that it's all okay  
Show me that you are enough  
As we dance the night away  
Heaven's shining down on us  
I can feel it in your touch  
I can hear it in the words you say  
This is just the first dance

There's a way that you have found  
That leads right to my heart  
The secret things that nobody knows  
And now you've figured out  
I never thought I'd be so close  
I never thought I'd feel your love  
But now here I am

So take me to the place I love  
Tell me that it's all okay  
Show me that you are enough  
As we dance the night away  
Heaven's shining down on us  
I can feel it in your touch  
I can hear it in the words you say  
This is just the first dance

So take me to the place I love  
Tell me that it's all okay  
Show me that you are enough  
As we dance the night away  
Heaven's shining down on us  
I can feel it in your touch  
I can hear it in the words you say  
This is just the first dance

Take me to the place I love  
It's all okay  
As we dance the night away  
Shining down on us  
I can hear it in the words you say  
This is just the first dance

Take me to the place I love  
Tell me that it's all okay  
This is the first dance
