

Boom

Amanda Jenssen

Boom
You never loved me
Soon you'll never care
Boom
You shot above me
I'll bloom
Another year

Pour me into the river
Find the perfect wave
Drag me as I shiver
Hundred miles away
Tangled up in a bird's nest
Pick my mind coo-coo
People under the surface
Are talking about you

Boom
You never loved me
Soon
You'll never care
Boom
You shot above me
I'll bloom
Another year

Sail the seas on my shipwreck
Can't connect the dots
Beat me up with your broomstick
And forget-me-nots
Although time is a killer
Oceans never cave
Take your new caterpillar
Dancing on my grave

Boom
You never loved me
Soon you'll never care
Boom
You shot above me
I'll bloom
Another year

Move your shoulders
To the land
Prove it's over
Bloom again
