

# Numb

Amanda Jenssen

Where have I been? Lock me in again  
I made you scream and shout, because of doubt again  
You wonder why I had to lie again  
The truth is, darlin', I'm afraid to love

Oooh  
I've cheated and I've lied  
But I never really tried  
So wait, don't go  
I'm not leaving you no more  
Close the door

I've found my light, but where is he tonight?  
The wall before my heart falls apart tonight  
Now he has left, so I can't get no rest tonight  
Tell me darlin', ain't that love?

Oooh  
I've cheated and I've lied  
But I've never really tried  
You say, you're darn  
That my actions made you numb, like me

Oh, tell me darlin', ain't that love?

Oooh  
I've cheated and I've lied  
But I never really tried  
You say, you're darn  
That my actions made you numb, like me  
But now you're free  
But lonely  
Like me  
I'm sorry
