

## Volcano Swing

Amanda Jenssen

Better now that summer is over  
I'm not gonna tell if you don't  
Rather wear this sea on my shoulders  
Than trust my old umbrella and jump  
As the pavement sinks  
Autumn rings  
Feel my limp  
Heart dancing

Volcano swing  
I'm erupting  
My ground is turning  
I keep burning  
Everything  
Volcano please  
You're my disease  
My core is aching  
I can't shake him  
Out of me  
Go back to sleep

Calling for the wind to come find me  
Ship me back to Florence tonight  
Dragging all our mirrors behind me  
The tide won't ever get back inside  
Where the lava lies  
Watch it rise  
Keep my eyes  
Hypnotized

(2x)

Volcano swing  
I'm erupting  
My ground is turning  
I keep burning  
Everything  
Volcano please  
You're my disease  
My core is aching  
I can't shake him  
Out of me  
Go back to sleep
