

Chinese Walk

Amanda Lear

Chinese come
And the Chinese are walking all together
The Chinese come
And the chinese are billions

Billions on the road
Billions on the road
The Empire of China
Is walking on the world
And they come

Chinese come
And the Chinese are walking all together
The Chinese come
And the chinese are billions

You don't talk but you walk & you walk on the road
Again...
You don't know exactly where you go but you follow
Your way...
Red alert on the world
You can push the button

Chinese come
And the Chinese are walking all together
The Chinese come
And the chinese are billions

From Peking to Shangaï
And Shangaï to Hong-Kong
The Empire of China
Is walking on the World
And they come

Chinese come
And the Chinese are walking all together

Will you find happiness in a world made by money
And fame?
You believe it but will you go till' you forget
Your name?
United as brothers
They're singing together

Chinese come
And the Chinese are walking all together
Chinese come
And the chinese are billions

Chinese come
And the Chinese are walking all together
Chinese come
And the chinese are billions
