

I Don't Wanna Lose You

Amanda Lear

I don't wanna lose you
There's no fun without you
Oh boy you made me suffer
Oh boy you made me cry
And when it was all over
I thought that I was dying

I truly loved you endlessly
But you decided to leave me
I guess what Gloria sings is true
And now I know I will survive
Surely time will heal my pain
And I shall fall in love again

I don't wanna lose you
I don't wanna lose you
It was too hot not to cool down
I've been so jealous and so blind
I don't wanna lose you
I don't wanna lose you

So many things I couldn't say
And so much pain to hide away
I trusted you, I was a fool
And I discovered that you lied

And now that I feel blue
When you said I used you
It's just I was afraid to say
That I would never go away

But now I see clearly
That I love you deeply
I wanna be yours till the end
I don't wanna be just friends

I guess what Gloria sings is true
And now I know I will survive
Surely time will heal my pain
And I shall fall in love again

I don't wanna lose you...
I don't wanna lose you...
I don't wanna lose you...
