

# I Need Silence

Amanda Lear

Night is coming to give  
Her silent mystery  
Now, I'm going to leave  
C'ause nobody have really cared  
Nobody have really shared

I need Silence  
Silence  
A real Silence  
C'ause nobody have really cared  
Nobody have really shared

I need Silence

I really miss you  
I really need you  
But everywhere I look  
How would you like I be myself...  
Without your face in my head?

I need Silence  
Silence  
A real Silence  
C'ause nobody have really cared for me  
Nobody have really shared

I need Silence  
Is it really hard to care?  
Really hard to take care  
For a desperate SOS?  
Anyway, you left  
Anyway, I felt

I need Silence

Silence  
A real Silence  
C'ause nobody have really cared for me  
Nobody have really shared  
I need Silence  
Such, such, such...a noisy town!  
Such a noisy town  
Just an unpleasant crowd!  
And I would you like I be myself
