

Love At First Sight

Amanda Lear

See me, standing on the other side
Catch my eyes though the crowd that we're surrounded by

Love in the air, just a heartbeat away from you now
I believe in love at first sight
Sink your eyes in mine
I believe in strangers' connection
So, make me feel alive... tonight
Feel and free to use your power of seduction
No one can resist my attraction

I've got my eyes on you, ooh baby you're the one

I believe in love at first sight
Sink your eyes in mine
I believe in strangers' connection
So, make me feel alive... tonight
I believe in love at first sight
Sink your eyes in mine
I believe in strangers' connection
So, make me feel
Make me feel alive... tonight
