

Feel Good

Amanda Perez

I can make you feel real good
Real good

Hello! Yes, this is me
Tell me all the things you would like to see
All the things you never felt
Take off your shirt loosen your belt

Oh, tell me can you feel it
Keep touching on your face
Kissing on your neck
I'll be that Gemini, to give you what you like
I'm on my way lets go for a ride

I can make you feel good
I can make you feel
I can make you feel real good
I can make you feel real good
Let me lick your neck
Let me bite your lip
All over your chest is where I wanna kiss
Don't be afraid, let it all go
Turn off the lights and take off your clothes

Close the door and just relax I've got a plan and that's a fact
I'll fulfill all your fantasies
I'm that one in everyone's dreams
The dream where you wake up soaking wet
Where you find yourself with me in the bed
Pull my hair touch on my back
Ready for love, it's where I'm at

I can make you feel good
I can make you feel
I can make you feel real good
I can make you feel real good
Let me lick your neck
Let me bite your lip
All over your chest is where I wanna kiss
Don't be afraid, let it all go
Turn off the lights and take off your clothes

He call me up on the telephone
