

Magic Ooooooh

Amanda Shires

Between the blinds I watched an icicle fall and drop
And somewhere in the shattering I swear that I heard harps
The quiet way your hand reaches over into mine
I know it's too soon to say it
But I want you for all time, you're mine

And there's a magic, ooh, in the air
It's Christmas time in June
The world's so bright and new
Now that I've found you
I wanna hold onto this starry feeling
Forty hundred years
Or as long as I'm still here
Or long as I'm with you

I remember the moment before the icicle fell, and then it dropped
The way I saw a plume of hearts and angels playing harps
And all I want is your hand forever holding mine
Maybe it's too much right now
But I just can't keep it quiet, you're mine

And there's a magic, ooh, in the air
It's Christmas time in June
The world's so bright and new
Now that I've found you
I wanna hold onto this starry feeling
Forty hundred years
Or as long as I'm still here
Long as I'm with you

Got your name at the top of all my lists
At the center of my chest
Call me love
I'll get it tatted on my wrist
It's the way you occupy my mind
You're in it all the time
Call me love all I want is to call you mine, you're mine

Not many days left 'til the end of the year
Not many days left 'til the end of the year
But we got plenty of minutes

And there's a magic, ooh, in the air
It's Christmas time in June
The world's so bright and new
Now that I've found you
I wanna hold onto this starry feeling
Forty hundred years
Or as long as I'm still here
Long as I'm with you
