

All That I Am

Amanda Somerville

Dancing with you may not be like Hollywood
But Hollywood never looked like this
And I know you think sometimes that I talk too much
But in the end, you say "Ah, it's all right"

Wherever you go
You know you're my home
Besides, I want to know
How you'll look when you're old
And you're not just a ring on my finger...

You gave me the sun
Made me believe
Made life a song
And I give you my hand
Give you my world
And all that I am
All that I am

When I think back, what a crazy path has lead us here
And I'm so glad you're here
And sometimes things were so hard that I thought I'd break
But here we are
We've come so far

Everybody knows
You're the one I choose
I love you you so
Every day, how it grows
And you're not just the ring on my finger...

You gave me the sun
Made me believe
Made life a song
And I give you my hand
Give you my world
And all that I am
All that I am

You're so much more than just a ring that's on my finger...

You gave me the sun
You made me believe
You made life a song
So I'll sing for you
I give you my hand
I give you my world
And all that I am
All that I am, and all my love
All that I Am, all my life
All that I Am
