

## Oscillating Love

Amason

Is it just the way you talk to me on X?  
I get this feelin' we're not goin' at it  
Is always your head or you gonna or lose it or transform it?  
Keep trust always spinin'  
Can we go after the same thing runnin'?  
Keep all the hours

Ah ah will grow  
Don't sleep with nobody  
You say you fit  
See me open my heart in  
Mmm, so I can pain in out the window  
Stay away from the dark  
Get up to find a kickin'  
I take a car, could pay a mirror to be lookin'  
Straight through the heart  
Not me, no way in this oscillating love

Carefully turn the mad man madness heart (Oscillating love)  
Nobody's askin' me to take the run  
To wakin' up hard in this sleep feelin'  
More than we have been fallin' at meetin' to be left alone  
Come through the day to the end come  
What if we hadn't forget that the waitin'  
Fallin' at meetin' to be left alone

Want to dug it to the and I love

Come down to our funeral an hour and a day  
Stuck and forgettin' we will always  
Your hate stickin' shape shinnin'  
Or you drivin' so I will go  
Down through the isle, you phrasin' the frame  
Look I'll be home again darlin'

But how can I be steerin' ou the window  
Get away from the dark, get up to find a clickin'  
I take a car, could pay a mirror to be lookin'  
Straight through the heart  
Not me, no way in this oscillating love

Carefully, no we will have to stop (Oscillating love)  
No one could answer for me, left alone  
So I keep hard in this sleep waitin'  
This is music  
Soundin' like I'm rhyming', try to cancel me  
But I had it on the street with the enemy  
So what is keep passin' forget to livin'  
Everyone I meet is a stranger to me  
Heart just waitin' for the enemy
