

Candy

Ambar Lucid

Don't ya know that you drive me crazy?
I've been dreaming about ya lately
My eyes, they look than what they're given
And honey, told you all I see is heaven

Balance me with your sweet psychedelic candy
Balance me with your sweet psychedelic candy

I left a little bit, a piece of me in you
The secret that we have is what we have is true
I feel your energy bouncing on my skin
A self discovery is now about to begin

Balance me with your sweet psychedelic candy
Balance me with your sweet psychedelic candy

Don't ya know?
Don't forget
You're the one that I love
Don't ya know?
Don't ya get?
You're the one my heart wants

Balance me with your sweet psychedelic candy
Balance me with your sweet psychedelic candy
