

Forest

Ambar Lucid

I danced with the forest
In the clouds
When rain started pouring
The moon spoke loud
She told me "Estrella, niña bella
I'll make you a star
If I say meet me halfway
Would you make it that far?"

Oh, the things I would do
I'd take all the light in the world
And give it to you

Trust that you will know when it happens
Let the sun heal all of the damage
Si tu corazón tiene frío
Te lo cambiaré por el mío
Como un rayo cuando brilla en el mar

I've said it before
I'll say it again
I'll scream at the sky
Until you understand
Unconditional
Forever unconditional
If you're lost without a home
Habrá una casa en mis brazos
And no matter where you go
Estaré a tu lado

Oh, the things I would do
I'd take all the light in the world
And give it to you

Trust that you will know when it happens
Let the sun heal all of the damage
Si tu corazón tiene frío
Te lo cambiaré por el mío
Como un rayo cuando brilla en el mar
