5 Years of You

Amber Lawrence

Verse 1
My heart just fell out of my chest
In a uniform, a lunch box and a hat
I had to put on a brave face
Oh, isn't it my job just to smile and wave?

Chorus
'Cause I had five years of you in my life
Holding my hand every little moment
Oh, I had five years of you in my life
And sometimes I just wish I could go back
But don't slow down, little one
Today's your first day of school
No, don't slow down little one
If you be brave, then I'll be brave too

Verse 2
This gate behind me has to close
Just moving on and kinda letting go
I'll pour myself a cup of tea
And watch the clock until it's time to leave

Chorus
'Cause I had five years of you in my life
Holding my hand every little moment
Oh, I had five years of you in my life
And sometimes I just wish I could go back again

Instrumental Break

Outro
So don't slow down little one
Today's your first day of school
No, don't slow down little one
I'm so proud of you
