

Boot Scoot

Amber Lawrence

Get, get down and do the boot scoot
Get the moves to make you feel good
Get your boots, get your belt, and your new hat too
Get, get down and do the boot scoot

Take a few steps to the left (To the left)
And then a few steps to the right (To the right)
Put your hands in your pockets on your hips
Roll your shoulders 'round three times (Three times)

Get, get down and do
Get, get down and do
Get, get down and do the boot scoot

Clap your hands, clap your hands, clap your hands
Touch your toes, touch your toes and your nose
Turn around, turn around, turn around
Get down, get down, get down

And get down and do the boot scoot
Get the moves to make you feel good
Get your boots, get your belt, and your new hat too
Get, get down and do the boot scoot
Get, get down and do
Get, get down and do
Get, get down and do the boot scoot

It's easy to boot scoot, everybody
You just gotta get up and then you gotta get down
