

Bring It Back

Amber Lawrence

BRING IT BACK - Amber Lawrence/ Melanie Dyer

VERSE 1

I can hear it, calling in the air tonight
Feel the rhythm, hits me then it takes me high

As the sun sets, feel the rumble of the crowd
Oh how we miss this, just the chance to sing out loud
Oh sing out loud

CHORUS

We've been waiting for so long, for the band to play our song
Come on bring it back
We've been told to just hang on when everything we love is gone

Come on bring it back
Bring it back, bring it back

VERSE 2

There's a soundtrack for all the moments in our lives

It's only music, but we need it to survive
I wanna feel alive

BRIDGE

So sing it loud, sing along and take it back to what it was.
To those days, when we raised up a cup to the stage, 'cause

We've been waiting for so long for the band to play our song
Come on bring it back
We've been told to just hang on when everything we love is gone

Cmon bring it back

Can you hear it, calling in the air tonight
