

Heart

Amber Lawrence

You're a fighter, a survivor
Trail blazer, nothing breaks you
Cause you win some, and you lose some
But you never give up
Take a beating, keep believing
Keep your head up, keep on dreaming
You're amazing, on the days when
Life gets tough
You've got heart
Big enough to light the dark
A little grit, a little spark
That's what's gonna take you far
You've got heart
Even when you fall apart

You pick yourself right back up
That's what makes You who you are
You've got Heart
You are years of sweat and tears and
Never knowing, where it's going
But you hold on, and you stay strong
Cause you don't know any other way
You've got heart like a lion, burning desire, people talk about
you 'cause you never give up
No making excuses, or hiding the bruises... on your heart...
