

# Hey

Amber Lawrence

I have lived for long enough to take my own advice  
Like be yourself, believe your worth and swim against the tide  
My mother taught me that the beauty of beauty is, it comes from  
inside

Even on my worst day I can find a happy spin  
I was raised to seize the day and always let love in  
My father taught me normal is anything but normal  
And you can walk tall even with a limp  
Let's go out with a bang  
Like the way that we first began  
Living like we never made plans

Staying up until 4am  
And if lemons make lemonade  
I'll shake it up and make it rain  
I'll go my own way  
Cause life's too short to give a Hey !  
Oh oh oh whatever now ooh ooh ooh  
I have been around the world and found we're all the same  
Living in the moment what's we're trying to attain  
We work so damn hard, it goes by in a flash  
So let's take a little time and drink to that  
I've got a vibe for the sweet sweet life
