

Honeysuckle

Amber Lawrence

Verse 1

Coconut oil and a can of lemonade
And a radio in the sand
Listen to the sounds of the boys of summer
And he's gonna be my man

Chorus

I smell honeysuckle
I'm gonna fall in love this summer
I'm gonna lay in the arms of someone, he's gonna understand
Cross my heart and burst my bubble
I'm in the mood to make some trouble
I smell honeysuckle
Summer over me

Verse 2

There's a very, ice cold cherry
Spitting out watermelon seeds
School term's finished, now the fun is beginning
And the boys' really turning up the heat

Pre-Chorus

It takes me down, down, down to the water's edge
It takes me down, down, take me all the way

Chorus

I smell honeysuckle
I'm gonna fall in love this summer
I'm gonna lay in the arms of someone, he's gonna understand
Cross my heart and burst my bubble
I'm in the mood to make some trouble
I smell honeysuckle
Summer over me

Bridge

I am seventeen again
With a flower in my head
And I'm not gonna let a little sunburn get me down

Pre-Chorus

Down, down, down to the water's edge
It takes me down, down, take me all the way

Chorus

I smell honeysuckle
I'm gonna fall in love this summer
I'm gonna lay in the arms of someone, he's gonna understand
Cross my heart and burst my bubble
I'm in the mood to make some trouble
I smell honeysuckle
Summer over me

Outro

I smell honeysuckle
Summer over me
