

Round of Applause

Amber Lawrence

Round of Applause, you're leaving us now
The street's are all lined, your family's proud
It's 25 degrees in June, that don't make sense
The car drives away, and all that is left is

I miss you already, gonna miss you forever
Round of applause, you sure deserve it
But it would be better, if we were together, to cheer on a happier day
I miss you already, gonna miss you forever
People are clapping, cause you were a fighter
Now I sing my baby to sleep with sweet stories of you, forevermore
Round of applause

It's all been said, one for the road
We'll reminisce, you'll never grow old
We'll raise a glass and pretend we're not sad
We'll always talk of you, laugh when we can

I can still see you, but it will fade in time to soon
