

Save the Planet

Amber Lawrence

Chorus

C'mon save the planet
C'mon save the planet
Every day there's a thousand ways
We can help to save the planet

Verse 1

You can drink your drink from a nice keep cup
There's no pollution when you fill it up
It'll keep it cold or keep it hot
And help to save the planet

Verse 2

You can take your bag to the grocery store
Plant some plants, then plant some more
Learn what recycling bins are for
It's time to save the planet

Chorus

C'mon save the planet
C'mon save the planet
Every day there's a thousand ways
We can help to save the planet

Verse 3

Turn off the lights, turn off the taps
Say "no" to plastic straws and bags
The fish will all thank you for that
For helping save the planet

Chorus

C'mon save the planet
C'mon save the planet
Every day there's a thousand ways
We can help to save the planet

Instrumental Interlude

Bridge

There's some silly people who don't care
Who leave their rubbish anywhere
So pick it up if you find it there
It's time to save the Planet

Chorus

C'mon save the planet
C'mon save the planet
Every day there's a thousand ways
We can help to save the planet
C'mon save the planet
There ain't no Plan B planet
Every day there's a thousand ways
We can help to save the planet
C'mon save the planet
C'mon save the planet
Every day there's a thousand ways
We can help to save the planet

Every day there's a thousand ways
We can help to save the planet
