

## A Little More

Amber Mark

I need a little more from you baby  
I need a little more so take your time  
Take your time

I want a little action baby  
I want some satisfaction  
Take your time  
Take your time

Someone that's obvi  
Someone that's envious  
Someone insane, screaming my name  
Someone that lifts me up  
Someone that comes around  
Someone that's always down  
Someone to say less, never need rest  
I need a freak now

Someone that's obvious  
Someone that's envious  
Someone insane, screaming my name  
Someone that lifts me up  
Someone that comes around  
Someone that's always down  
Someone to say less, never need rest  
I need a freak now

I need a little more from you baby  
I need a little more so take your time  
Take your time

I want a little action baby  
I want some satisfaction  
Take your time  
Take your time

We can't stop, oh no we can't stop  
We can't stop, oh no we can't stop  
We can't stop, oh no we can't stop  
We can't stop, oh no we can't stop...

Someone that's obvi  
Someone that's envious  
Someone insane, screaming my name  
Someone that lifts me up  
Someone that comes around  
Someone that's always down  
Someone to say less, never need rest  
I need a freak now

We can't stop, oh no we can't stop  
We can't stop, oh no we can't stop  
We can't stop, oh no we can't stop  
We can't stop, oh no we can't stop...

I need a little more from you baby  
I need a little more so take your time

Take your time

I want a little action baby

I want some satisfaction

Take your time

Take your time
