

# All The Work

Amber Mark

I have cried many miles worth of tears  
Damn well tried, I gave up all these years  
Seems like there is a point to everything  
So it goes  
Such is life  
Singing Mmmhmmmm

You want me back  
You see all that  
I have begun  
And what I've done

Now that I, I put in all the work  
Down in all the dirt  
You want to try, to say that you and I  
Should get back to how we were

Now that I, I put in all the work (You want me back)  
Down in all the dirt (You see all that)  
You wanna try, to say that you and I (I have begun)  
Should get back to how we were (and that I've done)

I had gained all the pain, all the fear  
Where were you when I felt I could not get here?  
All of a sudden I'm all you need  
Listen 'bout all of our memories  
Tell by the way you're digging me  
Just give u  
I've moved on

Now that I, I put in all the work  
Down in all the dirt  
You wanna try, to say that you and I  
Should get back to how we were

Now that I, I put in all the work (You want me back)  
Down in all the dirt (You see all that)  
You wanna try, to say that you and I (I have begun)  
Should get back to how we were (And what I've done)

All of a sudden I'm all you need
