

# Can You Hear Me?

Amber Mark

Well I've got a lot to express  
And I don't know which to confess  
So I guess I'll start with the mess  
That is in my head, in my head  
Well I must be going insane  
Everything I do, I can't help but question  
Guess I'm gonna have to pay  
Someone to talk to, talk to, yeah

Well I know that you've got a lot that's on your plate now  
Now what I need you to please take time out of your day  
Because I need help, are you there God? I can't tell  
Can you hear me? Lord  
I'm singing, can you hear me? Lord

Is this all some sort of a test?  
Feel this emptiness in my chest  
Are you here or just in my head?  
'Cause I can't feel you or hear you  
You're not here and it's such a shame  
Feel I've lost all of my grace  
Got to deal with all of this pain  
And without you, it's not the same

Well I know you've got a lot that's on your plate now  
Now what I need you to please take time out of your day  
Because I need help, are you there God? I can't tell  
Can you hear me? Lord  
I'm singing, can you hear me? Lord  
Can you hear me?

Are you?  
Saying mother can you hear me?  
Saying mother can you hear me?  
Oh, mother can you hear me?  
Oh, mother can you hear me?  
I'm crying, can you hear me mother?  
I'm dying, can you hear me mother?  
I'm singing, can you hear me mother?  
Ears ringing, can you hear me mother?

(I'm shouting, can you hear me mother?)  
Well I know you've got a lot that's on your plate now  
(I'm shouting, can you hear me mother?)  
Now what I need you to please take time out of your day  
(I'm saying, can you hear me mother?)  
Because I need help, are you there God? I can't tell  
I'm praying, can you hear me? Lord  
I'm singing, can you hear me? Lord  
Can you hear me?  
I'm singing, can you hear me mother?  
Can you hear me?  
Can you hear me?  
Can you hear me?
