

Comin' Around Again

Amber Mark

Ask me what I'm drinking
You should order two

Maybe I came here for a reason
And the reason wasn't you

But the look in your eyes gotta on hold me
Go head put my number in your phone

Boy I ain't got high hopes
But damn you're kinda fine though
So let's see where the night goes

Maybe loves comin' around again
Maybe loves comin' around again

Couple drinks in and I'm fantasizing
Thinking 'bout you and your hand on my skin

I may be into you
But know we're not together
Let's take it easy
No diamond no pressure
I know you do it good but I could do it better

On and on and ohhh

But the look in your eyes gotta on hold me
Go head put my number in your phone

Boy I ain't got high hopes
But damn your kinda fine though
So let's see where the night goes

Maybe loves comin' around again
Maybe loves comin' around again

Boy I ain't got high hopes
But damn your kinda fine though
So let's see where the night goes

Maybe loves comin' around again
Maybe loves comin' around again
Maybe loves comin' around again
