Amber Mark

I took a plane straight back down to you  
Different locations trying to get me  
Wish I  
How to spaceship to come around quicker  
LA to your crib in just a sec

I can't find the reasons  
(Ri-Ri-Right here)  
These otherworldly feelings  
Or is it that I'm dreaming  
(Ri-Ri-Right here)  
No really am I dreaming

'Cause

Feeling like we're magnets  
High-key so attracted to you  
Your touch is really static  
That type of  
Shivers down my back shit  
Yeah

Really love your language  
Your breathing on my neck it takes me  
To another planet  
It's all so cinematic

Is this some sort of magic  
It seems so automatic baby  
Yeah  
Oh I can't  
Find the logic  
It's so very cosmic  
Oh the way you love me  
Feel so very cosmic, yeah

I've never seen a night sky look better  
Then when I saw it next to you babe  
Wish I  
Could relive moments with you in them  
Ey  
Over and Over it would never end

I can't find the reasons  
(Ri-Ri-Right here)  
These otherworldly feelings  
Or is it that I'm dreaming  
(Ri-Ri-Right here)  
No really am I dreaming
