

Love Me Right

Amber Mark

Tell me because I've said it all
I've got a feeling we must've hit a wall here
And baby boy, please, tell me like it is
'Cause you talk 'nuff but you never act on it

Because the drive it is alive and honey, it is calling you
And I'm numb, you're tryna hide it, baby, I need more from you
So could you please respond to me because I'll never understand
I give you the keys and while you gladly take 'em you don't use 'em

You tell me all the time, baby
I'm the light in your life
And you love me more each day
You are starting to drive me crazy
Why won't you realize
You gotta love me right, baby

Oh yeah
All night
Come love me right

Help me, I feel I've lost myself
It's just this one thing, we're great everywhere else
Or is it just me? Am I not what you want?
'Cause if that's the case baby, why lead me on?

Because the drive it is alive and honey, it is calling you
And I'm numb, you're tryna hide it, baby, I need more from you
So could you please respond to me because I'll never understand
I give you the keys and while you gladly take 'em you don't use 'em

(Why won't you?)
You tell me all the time, baby
I'm the light in your life
And you love me more each day
You are starting to drive me crazy
Why won't you realize
You gotta love me right, baby

(I need you in my zone)
You tell me all the time, baby
(I need you here right next to me)
I'm the light in your life
And you love me more each day
(I won't get off your phone)
You are starting to drive me crazy
(I need to feel your body)
Why won't you realize
You gotta love me right, baby

You tell me all the time, baby
I'm the light in your life
And you love me more each day
You are starting to drive me crazy
Why won't you realize
You gotta love me

That I'm the light in your life
(Come on, now)
And you love me more each day
Why won't you realize
You gotta love me right, baby

You tell me all the time, baby
I'm the light in your life
And you love me more each day
You are starting to drive me crazy
Why won't you realize
You gotta love me right, baby

You tell me all the time, baby
I'm the light in your life
And you love me more each day
You are starting to drive me crazy
Why won't you realize
You...
Love...
Love me...
Love me right
