

Ooh, ah

Say my name  
Like I'm on your tongue  
It always shocks my brain  
Know you feel the same  
Feel the same, oh

You're thinking too much  
Of falling too hard  
Breaking your own heart  
You're thinking too much  
A little too far

Boy, you're looking at a dream come true (Ooh)  
Have you ever thought about the things we could do? (Ooh)  
Waking up next day smelling like my perfume  
I'll turn you on  
I know you want those  
Late-night views  
Just us two  
Me on you  
Ooh-ooh

A little less sleep, a little more stay the night  
In all of your dreams, I'm the one by your side  
Let's fantasize of what it's like  
Oh, I, I'm on your mind  
I'm not surprised

You're thinking too much  
Of falling too hard  
Breaking your own heart  
You're thinking too much  
A little too far

Boy, you're looking at a dream come true (Ooh)  
Have you ever thought about the things we could do? (Ooh)  
Waking up next day smelling like my perfume  
I'll turn you on  
I know you want those  
Late-night views  
Just us two  
Me on you  
Ooh-ooh (Ooh-ooh)

Have you ever thought about the things we could do? (Ooh)
