

The Best of You

Amber Mark

Can't understand
I'm everything that is not her
Give her the dreams
We spoke about by the water

Felt a connection
But you got me guessing
Wondering how
I gave you the best of me
But she'll get the best of you now

Was I less than a friend?
A body to mend all the lonely?
The nights turn to morning
That you would spend holding me closely

You just a lesson
In love and rejection
Wondering how
I gave you the best of me
But she'll get the best of you now

You got me feeling so down
But I'm gonna let it go now

I gave you the best of me
But she'll get the best of you now
