

## Meant To Be

Amber Pacific

You're faced with the pain from the words that you hear  
It's hard to forget when it all seems so clear  
Just fight the urge to succumb to the tears  
The heart will grow stronger with each passing year

Are you lost in the fight to fit in?  
Hope isn't always so clear  
We take every hit we survive we don't quit  
We're all meant to be  
A melody everyone hears

Let's think of a life filled with family with friends  
Your chance to be different from those who pretend  
Let's take down the hate, all the games that they play  
The life of an act that I just want to end

Are you lost in the fight to fit in  
Hope isn't always so clear  
We take every hit we survive we don't quit  
We're all meant to be  
A melody everyone hears

Are you lost in this fight to fit in  
Hope isn't always so clear  
We take every hit we survive we don't quit  
We're all meant to be  
A melody everyone hears

Are you lost in this fight to fit in  
Hope isn't always so clear  
We take every hit we survive we don't quit  
We're all meant to be  
A melody everyone hears  
A melody everyone hears
