

# Half Alive

Amber Run

[Verse 1]

When you build me and remake me  
Can you bend but not break me?  
Just enough so I come back for more  
Control and curate me  
Won't you dominate me?  
Can't help and feel like I've need here before

[Pre-Chorus]

'Cause I need you  
I need you

[Chorus]

To feel even half alive  
I need you to sleep at night  
I need you to fill my time  
I'm wasted, sedated  
A trigger to not feel numb  
Persuade me there's nothing wrong  
Convince me to carry on  
In stasis sedated

[Post-Chorus]

And half alive  
And half alive  
And half alive  
Half alive

[Verse 2]

When you build and remake me  
Please don't bend, please don't break me  
'Cause you know that I'll just come back for more

[Pre-Chorus]

I need you  
I need you

[Chorus]

To feel even half alive  
I need you to sleep at night  
I need you to fill my time

I'm wasted, sedated  
A trigger to not feel numb  
Persuade me there's nothing wrong  
Convince me to carry on  
In stasis sedated

[Post-Chorus]

And half alive  
And half alive  
And half alive  
And half alive

[Bridge]

I'm not sure that you can help  
It's not the worst that I have felt  
But it feels like I'm falling  
Now our dance turns to crawling  
A routine that I can't miss  
Pulling me from the darkness  
You tell me I want this  
But I know I need this

[Pre-Chorus]

I need you

[Chorus]

To feel even half alive  
I need you to sleep at night  
I need you to fill my time  
I'm wasted, sedated  
A trigger to not feel numb  
Persuade me there's nothing wrong  
Convince me to carry on  
In stasis sedated

[Post-Chorus]

And half alive  
And half alive  
And half alive  
And half alive
