

# Heaven is a Place

Amber Run

'Cause heaven is a place I know  
I tell myself I shouldn't go  
A place where we could live together  
Playing with fire, but certain we live forever  
Heaven is a place like this  
Four walls to hide within  
A cold, cold world's medicine  
Knowing you won't have to sleep alone again

I don't know when I started loving you  
Now it's all that I can I do  
Heaven is a place I know when I'm with you

'Cause heaven is a place I know  
It's nothing like the TV shows  
It's cold and dark, still rains and snows  
And all the lights have turned down low  
Yeah, heaven is a place like this  
An assembly of broken things  
Never heard an angel sing  
Where living doesn't feel like falling

I don't know when I started loving you  
Now it's all that I can do  
Heaven is a place I know when I'm with you

Just for moment  
The briefest second  
Paradise is just inside my reach  
It's just for a moment  
For the sweetest second  
It's you and me  
It's you and me

I don't know when I started loving you  
Now it's all that I can do  
Heaven is a place I know when I'm with you
