

# Honeylight

Amber Run

There's nothing to it  
You just exist  
Then you die  
I'm under no illusion  
Things get better  
But you can try

You know it goes down like honey  
So open wide, open wide  
You don't have to say you're sorry  
You only tried, you only tried

It comes in waves, it's red like rust  
And in the stream you see the dust  
I would like to bathe in honey  
In honey light  
In honey light

I would like to take my last breath  
As my feet touch the edge of the light  
And I'll wander into the darkness  
Humming a song that I kinda like

You know it goes down like honey  
So open wide, open wide  
You don't have to say you're sorry  
You only tried, you only tried

It comes in waves, it's red like rust  
And in the stream you see the dust  
I would like to bathe in honey  
In honey light  
In honey light

Bathe in honey  
In honey light  
Bathe  
In honey light

You know it goes down like honey  
So open wide, open wide  
You don't have to say you're sorry  
You only tried, you only tried

It comes in waves, it's red like rust  
And in the stream you see the dust  
I would like to bathe in honey  
In honey light

You know it goes down like honey  
You don't have to say you're sorry

It comes in waves, it's red like rust  
And in the stream you see the dust  
I would like to bathe in honey  
In honey light  
In honey light

In honey light  
In honey light  
In honey light  
In honey light  
In honey light...
