

Little Ghost

Amber Run

Oh my girl what I would've given to find the truth before you went,
That if your heart was somehow tainted how you could still sleep in my bed

But if my eyes never failed me and could pick you out the crowd,
What I'd do to turn full circle and run from you instead

Little ghost, I don't want you
Little ghost, I don't need you
Little ghost, you're not welcome here anymore

Oh I've blamed it on misfortune and an ever changing tide
What I've learned is love's a lesson
That little ghost when you were mine

Little ghost, I don't want you
Little ghost, I don't need you
Little ghost, you're not welcome here anymore

Little ghost, little ghost, little ghost [x3]

Little ghost, I don't want you
Little ghost, I don't need you
Little ghost, you're not welcome here anymore

Hmm...
