

Neon Circus

Amber Run

Hey now
We've made it somehow
Still trying to make sense of this life we're living
It bends us, plays games with us
Just playing out part in this
Neon Circus

It starts as a whisper
And it turns to a shout
And it burns like an ember
And it keeps on burning
Until it flares from the inside out

Hey now
We've made it somehow
Still trying to make sense of this life we're living
It bends us, plays games with us
Just playing out part in this
Neon Circus

It starts as a feeling
Until it bursts out your mouth
It breaks like an ocean
And your bones start breaking and
Your lungs start giving out

Hey now
We've made it somehow
Still trying to make sense of this life we're living
It bends us, plays games with us
Just playing out part in this
Neon Circus

It's a Neon Circus
A circus
Hey now you've made it somehow
Still trying to make sense of this life I'm living
It bends us plays, plays games with us
Just playing our part in this Neon Circus

It's a Neon Circus
It's a Neon Circus
Neon Circus
