

Worship

Amber Run

You've got a spell on me
You're in every one of my dreams
It's started feeling like it's more a disease
When I close my eyes it's you I see

And it's torture
To love you
Now all I can do is dream of you
It's torture to love you

You've got a hold of me
Dug deeper than you'd ever believe
Started feeling like it's more a disease
When I close my eyes it's you I see

I lived alone before I met you
Maybe I'll live alone again

And it's torture
To love you
Now all I can do but dream of you
It's torture to love you

I lived alone before I met you
Maybe I'll live alone again

I lived alone before I met you
Maybe I'll live alone again

I lived alone before I met you
Maybe I'll live alone again

I lived alone before I met you
Maybe I'll live alone again

And it's torture
To love you
It's all I can do but dream of you
It's torture to love you

It's torture, it's torture to love you
