

Catch 22

Amber

Got my head kind of aching
Went to bed having heard the evening news
Global warming, financial crisis
And my darlings got the blues

There's a catch 22 in all things that we do
When we are untrue to our feelings
Missed the wood for the trees with our wrong priorities
We will not get nowhere near

There's a catch 22 when we bend all the rules
Let's play the game fair and square - catch 22

Things haven't changed on the stock exchange
Time to sell, to buy or to hold
Your talk is strange, blaming climate change
Why's your touch become so cold?

There's a catch 22 in all things that we do
When we are untrue to our feelings
There's a catch 22 when we bend all the rules
Let's play the game fair and square

The ending is in sight, then final minutes
We've got to get it right, surpass the limits
We're in it together

There's a catch 22 in all things that we do
When we are untrue to our feelings
Missed the wood for the trees with our wrong priorities
We will not get nowhere near

There's a catch 22 when we bend all the rules
Let's play the game fair and square - catch 22
Catch 22
