

# Crucified Solitude

Amber

When I open my heart and felt around me  
Everything has changed  
I stumbled and fell  
Touched heaven and hell  
And I felt so estranged  
What and when and how  
Does my head allow  
Suddenly something new  
I just can't find myself  
And the reason for that is you  
Your divine  
Divine within your soul  
So divine it's the love I can't control  
You're inside the dream I tried to hide  
The answers to my whens and whys  
Solitude was crucified  
Crucified  
Directed by me  
Without any words  
It completely changed  
And without any thoughts  
I switched all those parts  
I feel so insane  
Why is this so different?  
Why do I feel bare?  
Why do I change my views?  
I just can't see myself  
And the reason for that is you  
Your divine  
Divine within your soul  
So divine it's the love I can't control  
You're inside the dream I tried to hide  
The answers to my whens and whys  
Solitude was crucified  
Crucified  
Your divine  
Divine within your soul  
So divine it's the love I can't control  
You're inside the dream I tried to hide  
The answers to my whens and whys  
Solitude was crucified  
Your inside  
I stand before my choice  
To jump off or stay  
Have to kick all my fears  
I'm closing my past now  
I'm not afraid of what I see  
Your divine  
Divine within your soul  
So divine it's the love I can't control  
You're inside the dream I tried to hide  
The answers to my whens and whys  
Solitude was crucified  
Your divine  
All the pain I had to bare  
Was crucified  
Since the day I fell for you

You're inside the dream I tried to hide  
The answers to my whens and whys  
Solitude was crucified  
Crucified
