

Sacrificial Lamb

Amber

You will be very astounded
For it is so profound
What I am doing now
Don't try to wind around again

You know we've lost the center
Where we went hand in hand
Finally you know
you have to break away from me

Set me free and take away
those curtains from your eyes
Set me free, I know it hurts
It's like a (unknown)

And I leave you with your
self-portrayal and arrogance
and now you're crying
Now you're dying
Like a sacrificial lamb:

I thought I learned in my life
I could feel the internal strife
I am beside myself, got to call me everyday
(Every night, everywhere hey yea)

For you put out that fire (put out the fire)
and it's cool that I'm so tired
Don't you try to get me back
cause you never never will

Set me free and take away
those curtains from your eyes
Set me free, I know it hurts
It's like a (unknown)

You're building castles in the air
without foundations, with despair
It puts me off, you make me sick
it's all beyond repair

there is no chance you'll get me back again
I'm sure that you are lost and then

Set me free and take away
those curtains from your eyes
Set me free, I know it hurts
It's like a (unknown)

no (no) no (no)
like a sacrificial lamb

yeah, like a sacrificial lamb.
