

# GENESIS

Ameer Vann

You will find with time  
All things change  
We all praying to God  
But call him different names  
I tip toe on the sun  
High above it all  
And moonwalk in the gutter  
Where all the sinners are  
The Light is needed  
In the darkest of places  
I found my peace  
In the lowest of places  
I been face to face  
With death  
And best believe  
I have no fear of a man  
I leave this Earth  
And you gone see me again  
When I say it  
It come to life  
Like Genesis  
I pray to soften the hearts  
Of all my enemies  
And in the darkest of times  
We find divinity  
And in the back of my mind  
I find serenity  
I'm much more  
Than the man you think I am  
I'm in the den with the lions  
Like daniel n'em  
Like moses  
I'm screaming  
To let my people go  
If I touch it  
It's gold  
I let em all know  
I sing the song of the sinners  
And every lost soul  
If you hear me  
You feel me  
We walk the same road  
In the chapters of life  
We find the same stories  
Everybody want something  
Do anything for it  
The more we take  
The more we need  
The more is gone  
I try to capture the truth  
Inside my lil songs  
Me myself and the harmony  
All I've ever known  
My connection  
To infinite  
You could never clone
