

YEAH

Ameer Vann

We finna change the game
I'm swerving lane to lane
Smokin' that fire, sippin' that drank
I'm on that major pain
Shawty she love me, gave her the dick
She wanna change her name
Talking 'bout rangs and thangs
That's when I fade away
Steppin' on niggas, steppin' on bitches
We don't discriminate
Me and my dawgs
Me and my demons
We want a meal today
Walk in the bank, give me the cash
We finna steal the safe
Faded, I crash the Wraith
It's a catastrophe

Yeah, ho, standin' on business
I'm in my shell toes
Yeah, ho, standin' on business
I'm in my shell toes
Yeah, ho, standin' on business
I'm in my shell toes
Yeah, ho, standin' on business
I'm in my shell toes

Floatin' on somethin', I'm on to new things
Ruby's and emerald's inside my mood ring
We in a dangerous place, can't even feel my face
Feeling so numb, fill up the drum
I'm finna sweep the place
Put him to sleep today
We finna feast today
Pray for the weak, smoking this strong
That's just the shit that I'm on
She give me a call but I let it ring
Better to leave it alone
I'm in the wind, I'm in a ghost
Step on the gas and I'm gone

Yeah, ho, standin' on business
I'm in my shell toes
Yeah, ho, standin' on business
I'm in my shell toes
Yeah, ho, standin' on business
I'm in my shell toes
Yeah, ho, standin' on business
I'm in my shell toes
