

# A Million Sapphires

Amel Larrieux

Tender  
Precious  
Lovely one  
Golden  
And kissed  
By the sun  
Speak and  
Gems fall  
From your tongue  
The fire in me  
Has begun

This is so bright  
We are hope  
You are light  
Blind my eyes  
Hold me close  
And feel me explode into a million  
Sapphires

Eagles  
Dolphins  
In mid air  
Stars  
Aligned in  
Sparkling pairs  
To you  
All these wonders  
Can't compare  
The fire in me is there

This is so bright  
We are hope  
You are light  
Blind my eyes  
Hold me close  
And feel me explode into a million  
Sapphires

In the miracle that is this  
Beautiful emotion  
Life is breathing with us  
You the pranayama  
And me the body filled  
With all the healing energy  
I am you  
You are me

[x3]  
This is so bright  
We are hope  
You are light  
Blind my eyes  
Hold me close  
And feel me explode into a million  
Sapphires

We are  
We are  
We are  
We are
